

System Administrator (m/f/d) at the Stuttgart location

We invite you!

We are an innovative IT company on a growth course. For our customers, we integrate, check, cleanse, deduplicate and select their customer data. In doing so, we need further support from our IT Operations team to manage our systems and our clients' systems.

Are you interested in this job offer? Then we look forward to hearing from you!

What are the tasks of our IT operations team?

- Setting up and monitoring our server infrastructure "on premise" or in the cloud
- Execution of regular processes in IT Operations (data supply processes, data extractions, backup, ...)
- Maintaining and monitoring the IT security infrastructure (firewall, virus scanner, ...)
- Setting up and updating PC workstations
- Participation in tests and quality assurance of IT operations processes
- Technical documentation of the infrastructure and IT processes
- Participation in the planning and expansion of the IT and server infrastructure

What do we expect?

- If possible, you have completed an apprenticeship or already have extensive professional experience in the IT environment
- You are familiar with Unix and relational databases
- You can set up and operate IT infrastructure in data centres
- You are familiar with MS Windows and can set up and manage PC workstations
- You can communicate confidently in German and have a good command of English
- You are confident and courteous in your dealings with our customers

Not everyone is like everyone else! Therefore, we know that not everyone can take on all the tasks described. In a personal interview we can determine which tasks suit you best.

What do we offer you?

- An open, pleasant working atmosphere in a team
- Spacious premises in the heart of Stuttgart with excellent transport links
- Flexible, family-friendly working hours
- Home office? No problem with us
- The chance to take on responsibility and develop yourself further
- Attractive additional benefits

Apply with us!

We look forward to receiving your application documents.

Please send them to bewerbung@tolerant-software.de or to
